HENRY J. NAZRO & Co. IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, I 1919, in the "Boston Dully Times," and various other newspapers in the United States, by James G. Wilson, Legitle owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TORQUEING, AND GROOVING MACHINE, PRANING, TORQUEING, AND GROOVING MACHINE, Planing to the United States: · PLANING MACHINES.

throughout the United States:

"I take this method of sawering the frequent inquiries, by letter and otherwise, as to my opinion upon the arrous notices through the papers, of the Stationary Knis Plading Machines attempted to be paimed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine new of seed by several pretending inventors, described in the 10th volume of the Reperiory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kuglor, some six ten years since, and another one out up by Albert Richards, of West Troy, N. Y., and abandoned about the armetime. It ought to satisfy the public to Laow that after five Light years experimenting upon these machines, not one in the is of any value for the purposes contemplated.

I will furnish: a Stationary Knife Machine equal to any now in use, or to any oriered by the pretending inventors, at the cost of the machine and five per early for my outle.

EDITORIAL CORRESPONDENCE OF THE SENTINEI.

Madison, April 16. There was a rich time in the Assembly chambe last night-a combination of high tragedy, and laughter moving farce, such as we have not before had this session. The publication of the bill chartering the La Crosse and Milnaukee railroad, disclosed the fact, to the utter astonishment of members of both Houses, that, besides other obnoxious provisions, it contains a section rep-aling all laws which conflict with the rights granted under the bill. Considering that charters or extensions have been granted at this session and roads to terminate at La Crosse, you may imagine the surprise with which this surreptitions bill was read. A plan was arranged before assembling in the evening, by which the thing should be killed. A certain "dead-head" bill, which had been referred to a select committee, Mr. Lawrence chairman, was used for the purpose. Immediately on the falling of the Speaker's hammer, a call of the House was had. After the call, Mr. Lawrence asked and obtained leave to make a report. He then reported back the bill referred to the committee, with the recommendation that it do not pass, but that a certain substitute be passed instead. The substitute was read and proved to be a bill repealing the charter of the La Crosse and Milwankee R. R, and reviving all rights repealed by that charter! Those who understood the matter were wide enough awake, but some of the members opened their eyes to

Mr. Cate opposed the adoption of the substitute, making some reference to the reports in circulation in relation to the manner in which the obnoxious sections were got through. He thought that these sections should be amended, if neces sary, but that the charter should not be repealed. Mr. Patch co-incided with Mr. Cate. On the other side, Mr. Lewis advocated the adoption of the substitute. He stated that, to the best of his knowledge, the L. C. & M., charter, as printed, is not the bill as it passed the two Houses-that he was informed by Mr. Palmer, of the Senate, that that body struck out the objectionable featuresthat he (Mr. Lewis) examined the bill in the House, and that no such features were in it. He proceeded at some length in reprobation of this method of getting bills through, in utter disregard of the intentions of the House. Nothing was said, charging any particular person with fraud in the matter, but it had been reported quite currently that some found had been committed, and at least one name was mentioned.

Various motions were made to po-tpone, 1efer &c., the friends of the substitute gaining constantly, as the facts in the case became better known; and the substitute bill was adopted by a vote of City Clerk, Collector, Treasurer and Sheriff by 44 to 13, and read three times and passed and its title fixed, by acclamation.

So much for that part of the entertainment

The House proceeded with the order of business and passed some fifteen or twenty bills; they also refused to order the McNeil appropriation bill to City Election, where no such issue was involved, a 3d reading, by a vote of 18 to 19 though the vote they worked together again and swept the field. was not declared, and the bill was laid over. After the adjournment, indeed immediately upon the declaration that "the House stands adjourned," Moses M. Strong, who had been chaling in different seats in the chamber through the whole evening, sprang to his feet, and claimed a hearing for himself. He proceeded, in a most excited, abusive, and personal manner, and in a tone which he acknowledged to be one of unparalleled impudence, to explain the objects of the bill which had just been killed, so far as the action of the Assembly was concerned. He said that "if any one stole the bill through the Legislature, he was the man who stole it"-that he drew up the billthat its object was to take from all of these other companies the right to build a road to La Crosse, they having only proposed and projected such road, while the new company (of which Mr. Strong, Lt Gov. Burns, and others are corporators-in fact, I believe, the Governor is one of them) means to build the road. Mr. Strong's every feature-every gesture-betrayed his great excitement. In the course of his speech, he charged Mr. Lewis with falsehood in his statement of Mr. Palmer's declaration relative to the amendments. After Mr. Strong closed his speech, to which the members listened with much more courtesy than it deserved, Mr. Lewis mose and vindicated his own course and that of the Housemost effectually. Take the scene altogether, it

was decidedly a rich one. The delegation from Dane County, to whom had been referred a bill allowing a vote concerning subscription to Rail Road stock, reported unanimonely against the bill, and it was refused a third

The bilt giving a regular organization to the State Prison passed the Assembly this morning.-It may fail to get through all its stages to a final passage, the time being so short.

The Senate killed the bill, submitting the Main Law question to the people, and also, in effect, the apportionment bill, by piling amendments of all sorts upon it. Every possible point of the law was stretched by the bill which went from the Assembly, and it will not bear any further tension. The Assembly memorial for the organization of the new territory of Superior, was also rejec-

The McNiel claim of \$7,500 for damages, was taken up in Assembly in the afternoon. He made affidavit, on the Reynolds' claim, that he (McN.) did not expect the use of the diedge. On this occasion, another affidavit was mad, to the effect that he did not mean what he said in the former affidavit in several particular,—and that he did expect to have the use of the dredge. The claim had been so thoroughly logicalled and buttonhold that those who wished to discuss the merits of the bill were choked down by the previous question the majority even refusing to allow the former affidavit to be read. The following is the vote upon the final passage of the bill:-

Adjournment of the Legislature.

The Legislature adjourned yesterday morning tine die. The Session has been a long and laborions one. Besides a vast amount of local legislation, several laws of the first importance to the whole State have been perfected and passed.-Prominent among these is the Ocneral Banking Law, which passed both Houses by decisive maorities and has been approved by the Governor .it now needs the popular sanction to have full occurred effect, and this will be given at the geneml election in November next when the law will e submitted to the people.

The Apportionment Bill, re-districting the State for Sentors and Assembly men, has also become a law. So many amendments were made during the last two or three days of the Session that we are not quite sure as to the shape in which it was finally left. We believe, however, that it provides heretofore, allowing four or five different rail- for the election of 25 Senators and 31 Assemblymen, an increase of 6 Schators and 15 Assemblymen on the present number; and that Milwaukee County is allowed 3 Senators and 9 Assemblymen. The Assembly Districts are the five Wards of the city, Wauwatosa, Franklin and Oak Creek-Lake and Greenfield, Milwaukee and Granville. The bill to submit the Maine Liquor Law to the People at the Fall election was defeated by a tie vote in the Senate, after squeezing thro' the House. We cannot say that we regret its fate. The Separale Supreme Court bill passed both Houses and will be signed by the Governor. It provides for the election of three Supreme Court Judges in September next, and for the organization of the Court on the 1st of June 1853.

The Emigrant Agency bill has also become a

law, and will, we cannot doubt, prove highly bereficial to our State. Much, indeed, depends upon the character of the Agent selected to represent us in New York, but we feel great confidence that the appointing power, entrasted to the Governor, will be judiciously exercised.

The charter for the Milwaukee and La Crosse Rail Road Company which was discovered, after its passage, to contain two sections never disamed of by the Legislature-the one, repealing all previous acts of incorporation de, clashing with this, and the other donating certain State lands in aid of the road-was amended by a new act re maling these two obnoxious provisions.

The State loan bill for \$50,000 is among the acts passed and signed by the Governor. No difficulty, we learn, was experienced in obtaining this loan. It was negotiated by the Governor, substantially, we presume, upon the terms offered by Mr. MITCHELL a few days since. Much other business was transacted by the Legislature, of which we shall speak as soon as we obtain a full list of the acts passed.

The City Election of Hartford took place Monday, April 12. The whigs carried five wards out of the six, and elected five Aldermen to one Demeciat; also twenty Councilmen to 4 of the opposite party. The Whigs also have the and-orne majorities. There was no election for Mayor, the present incombent holding over. At the State election, the week previous, Hartford gave 300 "democratic" majority, the whigs being distracted by the "Maine Law" issue. At the

THE CANAL ENLARGIMENT BILL PASSED.—The ill which passed the New Fork Assembly, a fortnight since, by the strong vote of yeas 77 to mays 1. confirming the contracts for the Eric Enlargement and directing the immediate presecution of the work, also passed the Schate last week, after a rotracted session of 2 thours, by a vote of 18 to 9. CONCERT OF THE BLACK SWAN. The Concert of the "Black Swan" at Gardiner's Hall last evening attracted thither the largest and most brilliant audience of the seasons Almost every seat on the Main floor and in the Galleries was occupied and quite number of gentlemen were gled to get eyen a chance to stand. The "Black Swan" was

received on her entrance with a cordict velcome which her first notes hushed into profound and almost painful silence. This again was interrupted, at the close of the first verse she sang, by an outburst of applause as vehement as it was genuine. It was quite evident that the audi ence were surprised, not more at Ler style of singing, than at the wonderful compres and flexibility of her voice. This was still more emarkably manifested in the song which "the Black Swan" gave in answer to her fast encore. Indeed her performance, throughout the evening, was a succession of surprises, and called forth repeated and veriferous applace.

A second and last Concert will be given to-night

Concert of the Torrey Tronpe.

The Concert given on Saturday evening by Mrs Tonney and Troupe, for the benefit of Mr. Ways-ELINK, their Musical Director, has a very decided mprovement upon that which first introduced hem to a Milwaukee audience. The practice of the past few weeks was evidently been of service to them all and their performance, surprised and gratified the audience. Mrs Tonam's roice has nover been heard to greater advantage in our city and its rich and sweet cadences fell upon delighted cars. Mr. Kenlan sang with much toste and expression, managing his fine voice very and expression, managing his fine voice very cleverly and showing by the marked improvement already visible, that he is capable of accomplishing ever more decided triumphs. Mr. Wantifren's piano-forte playing was excellent; superiot, certainly, to anything we have heard here for a long time. Mr. Wantiffer is a true. Attist, and cannot find of success. The violin of Mr. Schuman hard again enchanted all who heard it. His rendering of "the Fantasic Caprice" was an exquisite performance, and toused the audience to enthusiasm. The whole Concert, in short, was highly successful, and very much enjoyed by all present.

Mesars Editor- : Sin :-- Permit me, thro' the medium of your excellent paper, to call the attention of the City authorities to a subject of public importancenamely that of establishing a market in some conenient part of the 3rd Ward. In selecting a location, public interest alone

should be consulted, and therefore, as one having no private interest in the matter, and actuated solely by centiments of a public nature, in which the inhabitants of the Third Ward cordully and unanimously participate. I would 165sectfully suggest the propriety of purchasing the Milwaukee House, with the appurtenances thereto belonging, which would answer all the required purpo-ca of a Market House. A public market might be established on Main-st, by removing back ome of the houses on blocks 7 and 14, by which plenty of room might be provided for market perposes at a small expense, as the present proprietors would be considerably benefited by the proposed arrangement, if they were even to give the required space for nothing. Under existing chemicstances, the Milwaukee House could be got cheap. By acting on these suggestions, the city Council would promote the interest of the public, and save the Third Ward from the enormous expense of building a Market House, which in some short time will be indispensable.

In the United States Chemit Court to-day, an interesting libel suit was commenced. The parties are General Welghtman now chiedcledk in the Patent Office, and Lt. Buney, United States Navy. Weightman was the guardian of Barney's wile, (formerly Miss De Kafit,) and on the eve of the election of Mayor, two years since, Weightman being a candidate for the office, a publication was issued by Barney, changing Weightman with the gross mismanngement of his wife's estate. Hence follows the suit. Messrs, Bradley and Key are for the pro-cention, and Messrs, Chilton & Linton for the defence. Much interest is excited in the matter.

The America arrived with dates to the 3d, at her wharf, early this A.M., with 35 through passengers and 18 to land here. She brangs the news of the Baltie's arrival at Liverpool on the 29th ult., in 12 days and 9 hours. The Collins steamer Arctic, from New York, arrived on the 31st ult.

For several days before the sailing of the America, the Liverpool Cotton market evinced extreme dullness and inactivity. Prices were irregular and quotations a shade lower.

The Commercial circulars however do not agree as to the exact extent of the reduction. Breadstuffs continue depressed, and there was a slight decline when the America sailed. Provisions here are scarce and prices firm.

France.—The French Chamber was opened on the 29th ult, by the President, and his reception was of the warmest kind. He read his speech standing, in which he gave out that it was the interest of France to keep in amity with all nations. He disowned any intention of assuming the title of Emperor, but declared that if disaffection or intrigue had forced him, he would have demanded of the people a new title, which would fix in his position the power with which the people had invested him. His speech excited great applause, and loud cries of "Vive In Napoleon" during the reading. The President then took the cath of fidelity to the Constitution, and the members were sworn to fidelity to the President.—Cavaignae was absent.

The next day the Legislative Corps met in their respective balls. The matial law ceased in all the departments. departments.

THE Directors of the Empire Insurance Company field confident that the plan of Insurance adopted by them will never with a hearty response from a discerning public. Our Charter and Hy-leave require that the applications sectived shall be divided into two or incore classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Workshops, School-houses, Seminaries, Churches, and other kinds of hazardous property, unsuly taken in the so-called "Farmers Companies," or "Farmers Departments," This will render the Eutern emphatically as "LARMERS COMPANY."
They submit for the Judgment of their fellow cliftens the tillowing summary of their plan of operational:

1. Policies will be divided into distinct Classes, the funds of each class being hopt separate, and each paying its own losses. The more given in one Classare not lable for losses tappening in the other.

2. Any applicant may at his option, pay a definite sum inful for his insurance, in flow of giving ins note.

3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein. So, School-bors.

4. The Second Class to consist of Churches, School-hot ses. Seminary buildings, Workshops, Taxons. Store Mills propelled by water power, &c., and personal proper temperature. of at this company.

This Company will hold itself responsible for the corcines of all surveys and other chicla acts of its author de agents, thus ending all card as to the feelinleal correct ses of all reveys, and the consequent liability of the Company. ness of surveys, and the consequent liability of the Company.

S. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of vuch withdraws.

9. This Company will adjust all claims with prompiness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.

10. Additional Stores may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.

11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.

12. Should any more money be collected than samicions to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the Langies Inturned to the poincy noncers in proposition in the Empire InInto Directors, in soliciting patronages on the Empire Insurance Company, do so in the firm consiction that the
plan will be found as CHEAP and SAFE as any company
can be made. In arranging their Rates of Hazard, and the
kinds of property to be insured in each class, they have
sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund

[THIS Association is formed for the mutual relief of its members in case of siskness or accident. A careful examination of its principles, and its beneticant objects, it respectfully collected. The character and standing of the Board of Directors is a quaranty that the money received will be safely preserved, and faithfully devoted to the objects propose. The propose of the Al-TH INSUR ANCE, and the beau understood, and its beneficent results practically seen and felt, is unparabilled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for more people are dependent upon it as the capital which enable them to procure the means of livelihood. Hence, when by disease or accident this is too, all is gone; and either an unpleasant dependence on friends or poverty and pasperian, is the consequence. It is not presumed that accident or the revages of disease can be prevented; but hy a wise forethought, a fountial may be provided, which, when the hand of afficition does come, will soften its aspectica, and secure a comfortable support for yourself or family.

The undersigned, having carefulls examined the pressed roofing Tiles, invented by Mr. Graciste, have found them perfectly answering the purpose intended. Their practical and structure of the presed roofing Tiles, invented by Mr. Graciste, have found them perfectly answering the purpose intended. Their practical and structure of the purpose intended. Their practical and structure of the purpose of the properties, but above all for its developed the perfect of the present of the properties, and channels not only exclude the energing of snow or rain-mater, have by their form and better the properties of the most position of one into the other, but, by their form and the position and an intimate connection. Busiles this, Mr. Grassle's method of burning the Tiles deprives them of the injurious tendency to absorb vaters, making them in this way durable; and joining to the above another vitrue, viz. that of dispersing with repairs. The under-signed therefore consider ourselves fully justified in reto emmenting to the building community the above roofing Tile as an excellent and valuable material.

In a few manutes the pain-articless suffereres periences the delightful sensations of departing pain. It has coursed the cases in the city of New York, where many of them had been brought atmost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nerrous system, and supply the nerves with nerrous energy and vikility, the loss of which is the clief cathes of nervous palan.

The use of Morphilas, Strychnias, Acontine, Belledonna Arnice, and other poisons are not only dangerous but cruel. The effect of these poisons is not to crue the disease, or to remove from the system the pains, but to deaden the series, to exact an and stop the nervous energy, to paralyze the functions of the zerous system, and to destroy agrassion. It this practice is continued for any length of time, the paralyzed, and the intellect destroyed.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Pans, called a

from which the above cut was taken. By it we can take the exact shape, and uncringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantago is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of \$1.25; surpossing any \$5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be, we invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us York manufacturing prices.
